SPRAY MINI

Nuovissimo ugello sviluppato per l'uso con le Pompe EDEN dalla 104G alla 114G, di facile installazione e grande praticità, composto da una piccola margherita e un tubo telescopico. Si adatta perfettamente a piccole fontanelle decorative da interni.

SPRAY KIT

Kit di 4 ugelli diversi per fontanelle utilizzati con le pompe EDEN dalla 112G fino alla 130G. Di facile manutenzione, sono dotati di tubo telescopico regolabile che è anche fornito di una derivazione per creare un effetto cascata, per alimentare una statua o altri spruzzi.

SPRAY MAX

Gioco d'acqua Margherita Grande per l'utilizzo con i modelli più potenti della linea EDEN (dalla 135G alla 159G) per creare effetti decorativi più ricercati nel laghetto o fontane. L'ugello è composto di 4 pezzi, di semplice e rapida manutenzione. Il tubo può essere composto da 3 o più pezzi avvitabili a seconda delle esigenze.

SPRAY MINI

Brand new set of small nozzles for the use with the new range of pumps (all models from EDEN 104G to 114G), easy to install and very practical, made up of a small daisy spray jet and adjustable telescopic tube. It perfectly fits to small ornamental and decorative indoor fountains installed where the space is reduced.

SPRAY KIT

Nozzles for fountains, which are accessories for the EDEN models Type 104G to 130G. They are easy to maintain and they are equipped with an adjustable (telescopic) tube that is made up of 4 different fountain heads to grant a wider choice of water effects.

SPRAY MAX

A large daisy nozzle to be installed with larger EDEN's G type pumps (from 135G to 159G) or even on pond filter pumps to create more water effects. This nozzle is also made of a self cleaning spray jet in 4 pieces, easy to be disassemble for maintenance. The tube can be made of 3 or more pieces according to customer's need.
